Profile Summary

I am a safety-conscious and results-driven Health and Safety Advisor with extensive experience in construction project management, health and safety oversight, and regulatory compliance. Adept at implementing safety management systems, extensive knowledge in CDM 2015 regulations, conducting risk assessments, audits, and compliance checks, and fostering a proactive safety culture within organizations. Proven track record of ensuring regulatory adherence to HSE laws and industry best practices, leading incident investigations, and developing training programs to enhance workplace safety.

Education & Certifications

- **Bachelor of Science in Building Construction**
Obafemi Awolowo University | 2013
- **Certifications/Memberships:**
 - NEBOSH Health and Safety Management for Construction – Level 3
 - IOSH Managing Safely – Level 2
 - CSCS (White Card)
 - Site Supervisors' Safety Training Scheme (SSSTS)
 - MCIOB (Member of the Chartered Institute of Building)

Professional Experience

Health and Safety Officer

City and County | Feb 2023 – Present

- Ensure full compliance with HSE regulations, including ISO 4500, 9001 and 14001
- Conduct regular site audits, safety inspections, and risk assessments to identify potential hazards and implement corrective actions.
- Develop and implement HSE policies aligned with legal and industry requirements, promoting a strong safety culture.
- Monitor and enforce PPE compliance and ensure safe work practices across all project sites.
- Conduct incident investigations, implement corrective measures, and report findings to senior management.
- Facilitate HSE training programs for employees and contractors to enhance awareness and compliance with safety protocols.
- Maintain detailed records of safety inspections, incidents, and compliance reports for audit purposes.

Consultant/HS Manager

DartoKonsult Limited | Jan 2022 – Jan 2023

- Led HSE compliance strategy, ensuring all projects met the ISO standards.

- Delivered toolbox talks and safety briefings to educate workers on HSE best practices.
- Conducted environmental and health impact assessments, ensuring regulatory requirements were met before project execution.
- Monitored on-site emergency response planning, including first aid, fire drills, and evacuation procedures.
- Regularly reviewed and updated measures to minimize risks on site.
- Ensured company policies aligned with health and safety regulations.

HSE/Construction Manager

DartoKonsult Limited | May 2015 – June 2022

- Managed multiple construction projects while ensuring compliance with CDM (Construction Design & Management) regulation.
- Conducted regular health and safety audits and implemented corrective actions to improve site safety.
- Had several risk management and design review with stakeholders to ensure compliance before and during construction.
- Led safety trainings and daily meetings to ensure compliance with industry standards.
- Collaborated with clients and regulatory bodies to ensure adherence to environmental and quality management standards.
- Gave regular advice to the principal Designer and ensured our projects and practices were compliant with CDM 2015 regulations.
- Reviewed contractors method statements and Risk assessments to ensure compliance.
- Maintained and updated the health and safety file as the projects progressed.

Builder/Implementer (HSE)

Doland Resources Limited | Oct 2013 – Apr 2015

- Conducted environmental impact assessments to ensure projects met ISO 14001 and HSE regulatory requirements.
- Developed site safety plans and enforced compliance with PPE usage and safety protocols.
- Trained employees on hazard identification, accident prevention, and emergency response.
- Assisted in ISO 9001 compliance audits, ensuring quality control in construction projects.
- Investigated workplace accidents, identified root causes, and implemented corrective and preventive actions
